THE SILVER STATE TICKET.

Republican newspapers, unable to say aught against the personnel of the Silver State ticket, endeavor to create prejudice against the nominees because of their former political associations. With a view of accomplishing this end they resort to falsehood and unblushingly assert that the most-backed Democrats captured all the fat offices on the Silver ticket. While with the majority of the men who left the old parties because of their opposition to the best interests of the State and nation, a man's former political affiliations are not taken into consideration, there may be a few who are influenced by such falsehoods as those circulated by the Republicans if they are permitted to pass uncontradicted.

There are thirteen candidates on the State ticket. Three of the offices for which candidates were nominated may or may not be abolished by constitutional amendments which are to be submitted to the electors in November. These are the Associate Justice of the Supreme Court, Lieutenant Governor and Secretary of State. There are also two offices—Regents of the State University—to which no emoluments are attached. Of the thirteen candidates six formerly affiliated with the Republicans. These are Francis G. Newlands, the nominee for Congress; Robert M. Beatty, the nominee for Attorney-General; A. C. Pratt, the nominee for Surveyor-General; H. C. Cutting, the nominee for Superintendent of Public Instruction; and J. S. Starrett, the nominee for Regent of the State University for the short term.

In the face of such a showing how can either of the old parties claim that there is a preponderance of former Republicans or Democrats on the ticket? There is no foundation for such a claim, but the Republican papers think they must find fault with it and resort to misrepresentation for lack of argument. The ticket was not nominated to suit Republicans and one of the very best commendations given it is that Republicans are dissatisfied with it.

A REVOLT IN LOUISIANA.

The planters of Louisiana are in open revolt against the Democrats. The cause is the repeal of the act allowing two cents per pound bounty on sugar. Under the McKinley law two cents per pound bounty was paid out of the public treasury to sugar producers. Last year this bounty amounted to about \$10,000,000. Louisiana planters received over \$9,000,000 of the amount. Under the new tariff act this source of revenue to the planters is cut off, and as might be expected, they are dissatisfied. They held a meeting at the Hotel Royal, New Orleans, which was attended by over 800 persons. Politics were introduced and the sentiment seemed to be in favor of electing a full Congressional Republican ticket. The majority declared themselves in favor of supporting the State Democratic ticket and the Republican Congressional ticket, and a meeting is to be held on the 17th instant to decide upon the course to pursue in the elections.

The sugar planters of Louisiana are more selfish than the people of the silver producing States. The planters want other industries taxed to pay a bounty on sugar, the mining States only ask that the United States shall coin silver at the mints at the ratio of 16 to 1, as the founders of the Government provided. The bounty on sugar imposes an extra burden on other industries; the coinage of silver injures no other business, but tends to enhance the price of labor and the products of labor. The planters do not hesitate to declare that they will not support a National party that is opposed to paying a bounty on sugar. They place their own interests above party success and are encouraged in doing so by Republicans, but when the people of the silver producing States declare they will not affiliate with parties that are opposed to free coinage, the Republicans denounce them in unmeasured terms.

POLITICAL experts are figuring out the political complexion of the Fifty-fourth Congress. One of them calculates that the Democrats will have 180 members, the Republicans 154 and the Populists and Independents 22. It is possible for a party to have a majority of the House, but not a majority of the States. In the event of the election of President being thrown into the House, the vote of Nevada will count as much as the vote of New York, as each State will have but one vote.

EX-PRESIDENT HARRISON in a speech in West Virginia said: "If the people at the elections this fall condemn the recent action on the tariff we shall have no more tariff tinkering." Does this mean the Republicans are satisfied with the new tariff law? If not what does it mean?

The Republican papers which have been contending for the last year that the Silver party and the People's party are one and the same, are now straining their intellect to prove that they are not.

The Populist party has drawn heavily from the ranks of those who voted for Harrison and Cleveland two years ago. Careful canvassers predict that the Republican ticket will not get 2,000 votes in the State.

BUDD AT SACRAMENTO.

A Hunter Shoots a Companion by Mistake.

DISREPUTABLE PROCEEDING.

Governor McKinley Arraigns the Democracy.

The Fatal Mistake of a Hunter.

SAN JOSE, Cal., September 8.—A sickening tragedy occurred last night at the Pichetti vineyard, fourteen miles west of here. Louis Cagnoso, an Italian employed by Perre Klein, went into the vineyard to be in wait for deer, and seeing some of the vines move shot a heavy object fell and there was a sharp cry. According to Cagnoso's statement, he was afraid of an attack in case the deer should not be dead, and did not go near the place of the shooting until early this morning, when he discovered the dead body of U. Belloni, an aged Italian, who formerly owned the Pichetti vineyard. After discovering what he had done Cagnoso came to this city and gave himself up. It is believed that Belloni was also in the vineyard in wait for deer, as a gun was found beside his body.

McKinley on Democrats.

BANGOR, Me., September 8.—Governor McKinley of Ohio spoke to an enthusiastic crowd here to-day. He said the Democratic President and Democratic Congress had been running the Government for eighteen months and during that time little else had been running. Congress has disappointed the people and trifled with a sacred trust confided to it exciting distrust and disgust among its constituents and impaired their investments. President Cleveland has denounced the tariff bill as a party dishonor, yet lacked the moral courage to veto it. McKinley criticized the tariff bill and said in every schedule there is the grossest exhibition of sectionalism and unjust discrimination.

The Heath Case Again.

FRESNO, September 8.—It is stated on good authority that the retrial of the Heath murder case will not take place until after election, and if no fresh evidence is obtained by that time the matter will probably be dropped altogether. Two unsuccessful trials have occurred, costing the county nearly \$12,000, and though a change of venue has been granted there is little belief that a verdict can be obtained. The Heath case involves several prominent local politicians and has caused no end of bitterness in political and social circles.

Crushed by the Cars.

STOCKTON, Cal., September 8.—A shocking accident occurred just north of this city early this evening. The conductor of a freight train, which was bowling along at a high rate of speed, felt something jar under the caboose. The train was stopped and under the wheels was found the body of a man mangled almost beyond recognition. From papers found in the pockets of the victim, it is evident that his name is John F. Egan, and it is believed that he came from Denver.

Will Sell Manufacture.

SAN QUENTIN, September 8.—At a meeting of the State Board of Prison Directors held at San Quentin to-day, it was decided to purchase 2,000 bales of jute at \$2 92½ per hundred and continue making bags, although it was shown that with the removal of duty on jute, it is impossible to make bags at a profit in competition with importing firms.

Timothy Lynch, sentenced fifteen months ago from San Joaquin county to two years imprisonment for assault with a deadly weapon, was paroled.

Union and Non-Union Men Fight.

SAVANNAH, Ga., September 8.—A pitched battle took place on Bay street to-day between union and non-union longshoremen, mostly negroes. About 100 shots were exchanged. Mark Kain, the white leader of the non-union men, was shot in the head and is expected to die. A number of negroes received slight wounds. The police, armed with Winchester, escorted the non-union men to the wharf so that they could resume work.

A Great Race in Prospect.

HARTFORD, Conn., September 8.—Directum, the great race stallion and the remainder of the string of horses owned by Orrin Hickok, has arrived at the Charter Oak Park. The horse will be prepared there for the greatest race of his life on September 24th, at Mystic Park Boston with Arlen, Kramlin, Nelson and Marquette.

Louisiana Likely to Change its Politics.

WASHINGTON, September 8.—Adolph Meyer, Congressman from the First Louisiana District, says it looks as if a Republican delegation will be sent to the next Congress from Louisiana and that Republican Presidential electors may be chosen two years from now. Democrats have treated Louisiana shamefully while Republican legislation has favored the State.

Budd Speaks at Sacramento.

SACRAMENTO, September 6.—James H. Budd, the Democratic candidate for Governor, spoke here to-night to a large and enthusiastic audience. Budd in his speech defended the principles of Democracy and laid the blame for the financial depression to Republicans. Among other things he said: "I believe in the independence of the American people and that they themselves will dictate who their officers will be, and on next November I believe they will rebuke the action of the late Republican Convention. I want to say that when I am Governor of this State that amongst others there is one abuse that I will see wiped out and I will make it a removable offense for a member of the Police or Fire Departments to dictate in politics. The Police or Fire Departments of Stockton have found their places and I will make it my work to bring about the same state of affairs in San Francisco and other cities. When we talk about these kinds of things—Mr. Estee says let's discuss the tariff. You can't get Republicans down to State issues. If you talk about our enormous taxes they say let's talk about Cleveland's Hawaiian policy."

There is another thing. We have a lot of public institutions built with people's money when there was absolutely no necessity for them. We have five asylums and I suppose that after awhile we might have one for every county. We have two State Prisons and probably in time may have four or five more. Now, I will veto any bill creating any commission for the erection of any public building where one does not already exist."

A Burglar Killed.

LOS ANGELES, September 8.—Jose Ledesma, a young Mexican, who while attempting to enter the house of Mrs. Frank Leconte at an early hour on the morning of August 27th and was shot by a domestic named Annie Cull, died at the receiving hospital this morning. His movements were heard by the girl, who instead of fainting or screaming provided herself with a revolver and laid for the burglar and when his head showed up fired, the bullet entering the forehead and lodging in the brain, but he managed to hang on to life until this morning.

The Death of Comte de Paris.

LOXDOX, September 8.—The death of Comte de Paris was most touching. The Comtesse de Paris closed her husband's eyes and all the Princes and Princesses, in order of their rank, stepped forward and kissed the hand of the dead man. It is now believed the body of the Comte, by permission of the French Government, will eventually be transported to Dreux. The temporary interment will be in the Roman Catholic church in Weybridge.

A Disreputable Proceeding.

FRESNO, September 8.—At a meeting of the County Supervisors to-day there were only two bids for the burial of the indigent dead. One was by an Oakland firm, offering to do the work for \$1.25 for each deceased adult pauper. A local firm obtained the job, their bid being only one-tenth of a cent for each person interred.

Cholera in Russia.

WASHINGTON, September 8.—Advices received at the State department from the Consul at Riga Russia under date of August 21st, state that cholera has appeared there. There has been twenty-eight cases, most of them resulting fatally.

Nominated Against his Protest.

DENVER, September 8.—The First District Populist Congressional Convention renominated Lafe Penze in spite of his protest. "I believe I would do better service in this State," he said, "by chasing the scalp of E. O. Wolcott."

A Fire at Pinole.

PINOLE, Cal., September 8.—The residence of Mrs. A. Tarney, together with its contents, outbuilding and barns, were totally destroyed by fire at 11 o'clock this morning. The loss will probably reach \$20,000.

A Prediction Not Verified.

OMAHA, September 8.—The prediction of drought and destitution in Nebraska is not verified. Only in the western part of the State are there demands for aid.

"For Years,"

Says LARRY E. STOCKWELL, of Chesterfield, N. H.: "I was afflicted with an extremely severe pain in the lower part of the chest. The feeling was as if a ton weight was laid on a spot the size of my hand. During the attacks, the perspiration would stand in drops on my face, and it was agony for me to make sufficient effort even to breathe. The pain came suddenly, at any hour of the day or night, lasting from thirty minutes to half a day, leaving as suddenly; but, for several days after, I was quite prostrated and sore. Sometimes the attacks were almost daily, then less frequent. After about four years of this suffering, I was taken down with bilious typhoid fever, and when I began to recover, I had the worst attack of my old trouble I ever experienced. At the first of the fever, my mother gave me Ayer's Pills, my doctor recommending them as being better than anything he could prepare. I continued taking these Pills, and so great was the benefit derived that during nearly thirty years I have had but one attack of my former trouble, which yielded readily to the same remedy."

Every Dose Effective

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs. Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative, effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance. Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

Divorces Nullified.

GUTHRIE, O. T., September 8.—A decision of the Supreme Court of this Territory to-day nullifies all divorces granted by Probate Judges in Oklahoma since March, 1893. There have been fully 400 such divorces. A large percentage of the persons so divorced have married since, and are guilty of bigamy.

Charged With Murder for Killing a Burglar.

PORTLAND, Or., September 8.—A warrant has been issued for the arrest of W. S. Smith, an East Side grocer, in whose store George Moorhouse, a burglar was killed by a trap gun set for intruders. The information charges murder in the second degree.

Utah's Assessment Roll.

SALT LAKE, September 8.—The Utah Board of Equalization has completed the assessment rolls of the different counties. The result shows the total assessment of the Territory to be \$99,594,243.40.

Selling at Auction on all Islands.

On the 10th inst. I will sell at auction, on all islands, which it appears, on many of the islands for each year of \$10,000, on say, \$125 each. The Ontario government was not given much time to consider their purchase. The Dominion government has had its own way. The "nigger in this woodpile" is yet to be discovered. Just what motive is behind the determination of the government to sell the islands in spite of public opinion is not evident. Those who remember all the Rykert and other timber land deals, and who look back over the 18 years' record of this most corrupt government, will look for revolutions in connection with this matter some day.—Montreal Witness.

He Got the Fastest Shoes.

Oliver Van Ostend, the New York electric expert, is very fond of driving and a day or so ago told his groom to have the mare he most favors for a spin in the park freshly shod. Being in a merry mood, he added, "If the blacksmith has any rusted shoes, tell him to fit her out with that kind." When he was surprised to get a bill for a complete set of fine copper shoes, especially made to order; but, as the joke was on him, he paid up without protesting.—New York Mail and Express.

Mocha Coffee.

Everybody knows that much of the so-called Mocha coffee sold in the United States is no such thing, but only a few persons know how some of the counterfeits are made. The berries growing on the highest limbs of the coffee tree in Brazil are often shriveled in the semblance of the true Mocha, and these are carefully set aside, shipped to some port famous for Mocha coffee and sent thence to the western world as the true thing.

Might Have Been Both.

First Boarder.—What ails Drumbach's appetite? He has hardly eaten enough for two days to keep him alive. Second Boarder.—It's love or policy.—I don't know which. He's courting the landlady's daughter.—Chicago Tribune

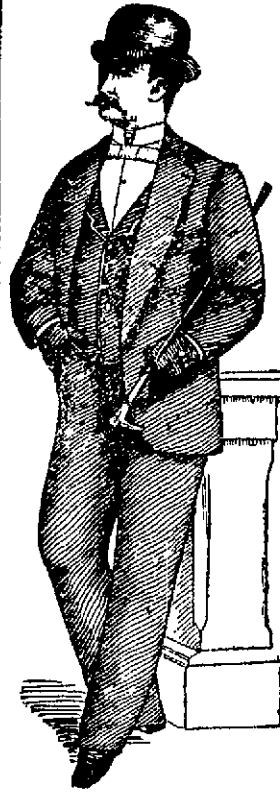

The Chicken Cured Him.

Last Wednesday George, the 10-year-old son of Miles Mizell, while walking in the swamp on the banks of Sutton creek, was bitten by a snake. He went at once to the house, where a chicken was out open and applied to the wound. When the chicken was taken off, it was perfectly green. Brandy was given him to drink. Although his leg was much swollen, he is now considered out of danger.—Winston (N. C.) Ledger.

Chicago's Fire Dove.

Speaking of the great fire in Chicago, The Herald of that city said, "Boasting high walls and thick blocks of blazing lumber, the old city was a white dove (the name of the burning) which sailed over the city on the morning of the 4th and disappeared."

MINING PROSPECTS IN THE SIERRAS

What Rambler Noticed on a trip in the Mountains.

A trip in the Sierras in Northern California reveals much of interest to the casual observer. Rugged pine clad mountains, intersected by canyons, creeks and rivers and interspersed with beautiful valleys and lakes, are to be seen on every hand. To one in search of the precious metals or the geologist, however, something yet of greater interest presents itself. In this region is to be found that which has given to the world, directly or indirectly, the greater part of the wealth produced by the placer mines of California, the "Blue Lead" of miners phraseology.

This most wonderful of ancient river channels has not received the attention that it merits from geologists or other scientific men. The study of it reveals the marvellous changes that have occurred in the topography of the country. Since the waters of the old river flowed from their unknown source, presumably, in the north. This channel which was once the lowest portion of this region is now the uppermost portion of some of the highest mountain ranges. It thus shows the working of the stupendous forces which have raised the once depressed region to its present height.

The general trend of this river was from north to south. It has been traced, by the blue gravel that is found in its bed, through the greater part of California, through Arizona and into Sonora, Mexico. It, seemingly, has cut through innumerable gold bearing quartz ledges in its course and much of the wealth that was contained in them is now distributed throughout the length of its bed. In nearly every place where the rim of the channel has broken down and the contents of the bed were forced out rich placer mines have been found that in many places contained millions of dollars. Nearly all the modern rivers that have cut through this ancient river bed have also contained gold in great quantity. The "Blue Lead" has only in a comparatively few places been broken down or intersected by modern rivers. From this it will be seen that the greater part of its gold remains intact awaiting the efforts of the miner to bring it forth.

On the portion of the channel that runs through the Grizzly range of mountains, west of Grizzly valley, several Reno companies have located claims. One of them has been sinking a shaft in order to ascertain the proper level at which to begin a tunnel. Another will commence tunneling soon. The rim of the channel has been broken down both north and south of these claims and rich surface placers have been the result. If one can judge by the large amount of gold that has been taken from similar places on the "Blue Lead" he may, reasonably expect those penetrating it at this point to reap a rich reward. The prospects are very encouraging to say the least, and well may those interested be enthusiastic.

Evidently placer mining in this portion of California has only begun. In addition to the "Blue Lead" there are secondary channels cutting it and many local channels, all of which will yield fabulous wealth. It may be said that only the rich surface deposits have been worked. A wise providence never designed that one generation should despoil nature's treasure house of all its wealth; hence these deeper river deposits where much time and labor are necessary to secure the gold they contain. After all the precious metal has been taken from the placer mines some future generation may discover buried under lava caps in the north the original ledges from which all this wealth has come, and when this is done gold may become so plentiful that a cry will be raised for its demonetization.

RAMBLER.

John Sunderland.

This enterprising merchant publishes a price list in this morning's issue of the JOURNAL. Having lived in Reno from its earliest days, Mr. Sunderland is fully informed as to the needs of the people here and surrounding country. Being possessed of this knowledge and the facilities for providing many of these wants he endeavors to give his patrons every advantage as far as his line of business goes. He recognizes the pressure of the times and makes his prices comparatively low. He has just stocked up with a full line of fall and winter goods, suits, gents underwear, hats caps, boots and shoes. Now is the time to prepare for cold weather by purchasing a heavy suit and overcoat. Don't put it off.

A Card to the Public.

Having succeeded to the dental practice of Dr. H. A. Fredrick I take pleasure in placing my card before the public. I am now fully prepared to attend to all classes of dental work, including gold, crown and bridge work, at as low prices as is consistent with first-class operations. Trusting I may be favored in the future with the same generous practice the office has enjoyed in the past I shall endeavor to give thorough work and perfect satisfaction to all.

Very respectfully,
Dr. R. P. CHANDLER.

Artistic Work.

Worshippers at the Baptist Church will be pleasantly surprised this morning at the beautiful appearance of the interior of the edifice. For two or three weeks decorators have been at work and have just completed a splendid job. The church is to be painted on the outside, when it will be one of the handsomest structures in Reno. Pugh & Cook are doing the work.

INAUGURATION DAY AT THE UNIVERSITY.

The New President Joseph Edward Stubbs, LL. D., to be formally installed.

Following an established and useful custom the Regents and faculty of the State University have arranged for formal exercises in connection with the inauguration of Joseph Edward Stubbs, LL. D., as President of the State University of Nevada, on Monday evening, September 10th. The inaugural exercises will be held in McKlasick's Opera House, beginning at 7:30 o'clock. Among the distinguished guests will be R. K. Colcord, President David Starr Jordan of Stanford University, and President Martin Kellogg of the University of California.

A cordial invitation is herewith extended to all the friends of the University to be present. The Regents and faculty desire that this notice shall be regarded as a personal invitation to all who have interest in the subject of education. The following is the evening program:

Joined for Life.

Mr. D. W. Dunkle and Miss Lola Thomas were joined in wedlock at Sacramento on Wednesday, the 5th inst., at the residence of Mr. Chas. Wilson, a cousin of the bride.

Miss Lola, now Mrs. Dunkle, was one of Reno's fairest and favorite daughters. She was born and raised here, receiving her education in the public schools and University, having graduated from the Normal Department of the latter institution in June last. She was a queen among her associates and schoolmates and loved by all.

Mr. Dunkle was formerly a resident of Eureka and for a long time has been in the employ of Wells, Fargo & Co. He is well and favorably known in Reno, and the JOURNAL, together with a host of friends of the young couple, hope that their pathway through life may be strewn with thornless roses and the honeymoon of their wedded bliss continue "till death do them part" and be as peaceful as a midsummer's morn.

Masonic Meetings.

Second degree Wednesday evening, September 12th; third degree Saturday evening, September 15th, at 8 p. m. Fourth section Saturday evening. Members and sojourning brethren in good standing are cordially invited to attend. s86 ROBT. LEWERS. (Gazette please copy.)

Justice Court.

The two men caught in the act of burglarizing Coffin & Larcomb's store were brought before Justice Linn yesterday. They waived examination and were recommitted to await the action of the Grand Jury.

Important Factors.

House-cleaning time is near at hand and new lace curtains and portieres are important factors to make a room look comfortable and cozy. Just such goods are offered as special bargains for one week, commencing Monday, September 10th, by the Palace Dry Goods and Carpet House. Five foot ebony poles with all the fixtures, 25 cents each.

After shaving or exposure to cold use My's Balm, 25 cents. Plummer's, Virginia St.

LOVELOCK NOTES.

Schools, Farming and Political Notes.
The public school at Lovelocks opened last week under the Principalship of B. F. Lynip. The attendance is quite large.

Ranchers are finishing harvesting their second crop of alfalfa, and many of them are expecting to cut a third crop. The hay is of good quality and the crop is large.

Wheat is turning out well and if prices are good this fall farmers will be well compensated for their season's labor.

Frank Peltier is filling up the Martinson house and expects to commence house keeping.

Joseph Marzen, P. N. Marker, J. H. Thies and John T. Reid attended the Silver Convention at Carson.

Robert Welsh has gone to his sheep ranch in the mountains.

Politics are beginning to be lively in town. Those Republicans who voted for the g. o. p. two years ago have fully awakened from their slumbers and openly avow they will never be so foolish again. They begin to realize the importance of teaching our sister States by example. GRANGER.

ANOTHER POLITICAL MOVEMENT.

Dr. Hogan Preparing to Advocate Woman's Suffrage.

ED. JOURNAL.—My attention has been attracted to your report of the People's party meeting last night in which it appears that Dr. Hogan in his speech stated that if the People's party should fail to carry out the wishes of the people he would go in with the ladies and form a Woman's Rights or Female Suffrage party, etc.

Well, now, how very kind of the Doctor. And so it would seem that he is taking time by the forelock and is already fixing for a bustup of his party that is not yet three days old. However, such is life in the woolly west and we have no right to be astonished at anything. But wouldn't the Doctor make a hairy old rooster at the head of a woman suffrage brigade, as for myself I wish to be excused.

District Court.

In the case of Becker vs. Sandbach, the Court ordered a new bond be placed on file.

Roberts vs. Green, a motion for a new trial was submitted and overruled, defendant excepted.

Case of Smith vs. Callahan, a proceeding for contempt in violating an injunction, all the parties being in court with attorneys. By consent of all the parties, the nominal fine of \$1 was imposed on the defendants.

O. Hartung vs. John Peterson, the demurrer to the complaint of plaintiff was argued by Judge Webster for defendant and Judge Haydon for plaintiff, submitted and taken under advisement.

G. B. Vietti, a native of Italy, and S. Armanko, a native of Austria, were made citizens of the United States.

The Court will meet Monday, at which time it is expected that the trial of the State of Nevada against Mrs. Hartley will begin.

For Assessor.

A. A. (Pete) Evans announces himself in another column, as a candidate for Assessor, subject to the decision of the Republican County Convention. Everybody knows "Pete." He has been identified with the town of Reno so long that the oldest inhabitant cannot recall the time of his arrival. He served as Deputy Assessor under H. L. Fish during the latter's incumbency, and for the past four years has been Mr. Fletcher's deputy. No man in the county is better posted than is "Pete" in the duties that pertain to the office of Assessor. He is thoroughly posted on the values of real and personal property, and in judging the value of land, live-stock, crops, etc., he is an expert. "Pete" has spent the best part of his life here and a comfortable little fortune that he brought into the county. He is an old soldier, faithfully serving his country during the dangerous period of the war. He seeks the office because he wants it, and if nominated and elected will endeavor to fill it to the most perfect satisfaction of every taxpayer.

Enoch Strother, C. O. Bowman, Geo. Hawkes and M. C. McMillan of Virginia and W. R. Randall and E. J. Parkinson of Carson were in town yesterday attending the meeting of the Republican State Central Committee.

The Carson News, Mr. Bartine's organ, says: "The very latest is that Senator Jones yesterday sent a check for \$50,000 to the State Central Committee of the Nevada Populists. How does that strike the Silver party?"

Mr. R. A. Maynard will begin his class in literature and history next Tuesday evening at 7:30 p. m. at his home in the Thompson Block. A general invitation is extended to all interested to attend this opening meeting and learn of the plan for the year's work.

Madame Bonnerville Leak has returned from her summer vacation and desires to inform the public that she will resume her select French class at the corner of Virginia and First streets. Those desiring to join the class are requested to apply at once. As heretofore strict attention will be paid to the pupils.

The Ogden Press says the Republicans of Salt Lake city organized a precinct club and christened it the John P. Jones club. While this was being done the wires from the East were conveying the news of Senator Jones' withdrawal from the Republican party to become a Silverite. The name of the club will probably be changed to the John Smith club.

CHANCE AND CHANGE.

"There was a rose by your gate last year.
Good neighbor, tell me now," he said.
"Have the frosts of the winter left it yet?
Or blooms it yet in your garden bed?"

"Two for one."

Have the red buds blown,
Two for one that there used to be!

For there many a day
"Twixt May and May,
And many a change in a year!" said she.

"And there was a girl beneath your roof
last year.

Good neighbor, tell me now," he said.
"Does her foot fall light in the cottage
near?"

Or is she wooed and is she wed?"

She lies apart
With a pulseless heart,
A broken heart, beneath the red rose tree!

For there's many a day
"Twixt May and May,
And many a change in a year!" said she.

"Kate P. Osgood in Good Housekeeping."

TOO MANY SPARROWS.

The English Bird Is Not Even a Favorite in
His Own Home.

It appears that the detested English
sparrow is by no means a general favor-
ite in his own home across the water,
where his habits have been more care-
fully noted.

In the course of his paper on "Wild
Birds, Useful and Injurious," in the
Royal Agricultural Society's journal,
Mr. C. F. Archibald says: "The sparrow
has received an overflowing measure of
abuse from farmers and gardeners, and,
withstanding all that has been urged
in its favor by enthusiastic advocates,
there can be little doubt that it deserves
a large share of the vituperation be-
lowed upon it. The keynote to the spar-
row's character is to be found in the
decision under which it labors that
can grow in a country as for its es-
sential benefit. Grain is undoubtedly the
mainstay of the sparrow. This it ob-
tains in the fields at seedtime, when
sprouting, in the ripe, milky condi-
tion, and when fully matured. At this
last named period a quantity of grain is
wasted by being shaken out on the
ground by the birds, in addition to the
amount actually consumed. At this
time, too, numbers of sparrows which
live for the greater part of the year in
towns are tempted to visit the fields,
their grumpy appearance proclaiming
their usual haunts.

"In gardens the sparrow finds full
scope for its destructive propensities in
devouring peas, of which it is very fond,
as well as a few gooseberries and cher-
ries. In the most mischievous way, too,
it pulls to pieces the flowers of the
crocus, dahlia, primrose, polyanthus,
geranium, heurricane, wistaria, the shoots
of pinks and carnations, the pods of the
labrum and the blossom of fruit
trees. It also does considerable damage
to both of young radishes and lettuce,
besides laying toll on the grass seeds
sown on lawns. On the other hand, it
must be freely admitted that the spar-
row does a great deal of good.

Among the pests destroyed by the
sparrows are wireworms, daddy long-
legs, beetles, corn pests and leav-
ers, aphids, caterpillars of various kinds,
honeybees, blue beetles, black beetles,
and white butterflies. In some districts
observers, otherwise known as Maybugs,
occasionally do immense damage, and
at such times sparrows have been seen
with their mouths crammed full of
them. The quality of wood used for
timber must also be placed to
its credit, for in this way it helps to
suppress such objectionable pests as
charlock, corn bind weed, goosefoot,
knottgrass, buttercup, dandelion, chick-
weed and dock."

Doubtful About the Doubt.

We are justly proud of our jury sys-
tem, but the 12 "good men and true"
are not always the wisest of mankind.
At a recent session a prisoner was in-
dicted for pocket picking, and to most
people in court the clearest possible case
was made out by the prosecution.

"Have you anything you would like
to tell the jury before they retire?" said
the judge.

"Well, all I want to say is, I hope as
"ow they'll give me the benefit of the
doubt," replied the prisoner despondent-
ly.

The jury considered their verdict.
They were no little time over it.

"Can I assist you in any way, gentle-
men?" said the judge, at last becoming
impatient.

"We are almost agreed, me lud,"
said the foreman, "but we can't quite un-
derstand what the doubt is the prisoner
wishes us to give him the benefit of."

—London Tit-Bits.

Webster's Portrait.

Daniel Webster once sat for his por-
trait to the late G. P. Healy, and the
senator's remark when he surveyed the
completed picture became one of the
artist's favorite anecdotes in after years.

"I think," said Webster as he looked
at his counterfeited presentment, "that is
a face I have often shaved."

Healy found Andrew Jackson a disagreeable
and unwilling "subject," and he com-
pensated himself by painting Old Hic-
ory with absolute fidelity to nature, not
glossing a single defect. The portrait
gives Jackson an ugly, savage and palid
face. —Chicago Herald.

The Kadras.

The Kadras are great philosophers.

If an ox should die, the owner
grieves, but remarks: "Now I must go
to work for master (all white men who
treat them well are called masters), and
in six months he will give me a cow.
It will have a calf. If it is a bull calf,
in a year I'll have a pair of oxen, but
should it be a heifer calf I'm all the
richer for the next year I'll have two
calves instead of one." —New York
Tribune.
